Police Committee Will Consider Mr. Villeneuve's Letter at Meeting Tomorrow.

WHAT AID. PROULX SAYS.

Declares He Has Nothing to Be Afraid of—Chief Campeau Makes a Statement.

When the Police Committee met on Friday the most pressing matter for consideration will be the letter of Mr. E. W. Villeneuve, making several charges against the administration of the police department.

Mr. Villeneuve's letter was read at the meeting of the City Council on Monday, and referred to the committee for a report. Just what the nature of this report may be is uncertain.

Mr. Proulx said last night that he hoped now to deal with the charges made against him and repeated them and again in such a way that they would be heard.

Including many minor matters, there are three main allegations in the letter of Mr. Villeneuve. These are, that it is said money has been paid to gain admission to the police force; that disorderly houses are given a certain kind of protection, and that a fund was raised by subscription for the benefit of Mr. Villeneuve's election.

Mr. Proulx said that he was giving careful attention, and would prefer not to discuss anything prematurely, but he was ready to say that the election fund referred to, that he had raised, was for the benefit of the whole thing, said the chairman of the Police Committee, "and I deny the charge that I had received any money from anyone to help me to get elected."
